EXPERIENCE

I love user-focused technology. I've worked with psychiatrists to develop MRI-based biomarkers for medication response, radiologists to develop cancer-finding algorithms, and Google to help them know when their ad-pricing algorithms aren't sure. I've consistently taken the lead on hard projects, learned whatever necessary, and delivered results.

Applied Research Scientist 2020
[Mila Technology Transfer, Mila Quebec AI Institute](#)

- Project proposals for object-detection in low-powered edge devices and for document forgery detection.

Research Intern 2020
[Google, Smart Ad Relevance System Predicted Click Through Rate Team](#)

- R&D on methods for estimating uncertainty for individual predicted click through rates (pCTR).

Research Intern 2019–2020
[Mila Medical, Mila Quebec AI Institute](#)

- Developed method for ensuring medical classifiers make the [right predictions for the right reasons](#).

Research Intern 2019
[Imagia Cybernetics](#)

- Method for cancer localization without segmentations, and improving classification by combining clinical notes and images.

Research Methods Specialist 2014–17
[Kimmel TIGRlab, Centre for Addiction and Mental Health](#)

- Developed two published machine learning tools that identify vulnerable [schizophrenia](#) and [Alzheimer's](#) patients.
- Managed the design & implementation (team of 5) of a [data management platform](#) and [quality assurance tools](#) used by team of 20.
- Key analysis, writing, & tools for 2 successfully funded grants & 13 published papers.

Data Analyst 2013–14
[CANN Lab, York University](#)

- Analytic support for [biomarker of reduced executive function in aging](#) and an [associated cognitive task](#).

Graduate Student 2011–13
[Schneider Lab, York University](#)

- High resolution MRI of the [human visual input](#) and [feedback](#) systems.

RESEARCH

Publications: I'm an [active researcher](#) with an h-index of 9 and 19 publications.

Precision Medicine: Biomarker development for patient-tailored treatments.

Deep Learning: Unsupervised and semisupervised learning, multimodal learning, interpretability.

EDUCATION

MSc. Computer Science, Machine Learning Specialization 2018–Now
[Mila, Université de Montréal, Montréal, QC](#)

MSc. Biology, Neuroscience Specialization, With Distinction 2011–13
[York University, Toronto, ON](#)

BSc. Psychology, Hons. 2005–09
[Queen's University, Toronto, ON](#)

TECHNOLOGIES

Python Proficient
Numpy, scipy, pandas, scikit-learn, pytorch, tensorflow.

MATLAB Intermediate
R Intermediate

Unix Administration Intermediate
Webservers, virtualisation, & containerisation.

C Familiar
Java Familiar
SQL Familiar

TEACHING

Introduction to Deep Learning 2019
[McGill BrainHack Summer School & MAIN Conference Workshop](#)

Python for Neuroimaging 2015
[Centre for Addiction and Mental Health](#)

EXTRACURRICULAR

Deep Learning Specialization 2018
[deeplearning.ai, Coursera](#)

Certified System Administrator 2016
[Linux Foundation](#)

High Performance Computing 2014–16
[SciNet, University of Toronto](#)
